“Bringing Edification, Exhortation, and Comfort to the Body of Christ Worldwide”

From the bookshelf by Rev. Pattie

If I had to pick one book besides the Bible to be the only one I could ever read again, it would be “Secrets of the Secret Place” by Bob Sorge. It is that vital, that delicious, that nutritional for your spirit man. As Mike Bickle says concerning this book, “It flows out of reality, forged from revelation and encounter.” I have continued to be ministered to, blessed by, and intrigued by the Lord every time I read a portion of this book. Francis Frangipane says, “It is focused, penetrating, passionate, and practical. Bob Sorge goes past informing of God’s secret place, he takes us there.” This book causes a burning desire to go deeper with God. Do not pass up this book! It is what I call “a savoring book.” One that must be read, thought about, and read again. It is that filled with rich golden nuggets mined from the heart of God.
