

Praise Reports

Thanks for all your marvelous prayers I had surgery January 4th and recouping extremely well no more pain in my butt hips or thighs just at the lumber area where the surgical site is so praise God no disabilities. JM

Just want to send out a praise report regarding the shingles attack on my body. My fever broke overnight, and I'm feeling 70% better!! Praise Jesus for his mighty healing power, and thank you prayer partners for your help in time of need. What a great team! And a mighty God we serve. DC

As I followed Pattie's word for 2023 to pray over my family, The Father opened up my understanding to contact a class mate from 1967-1980. She was and still is such a lover of Jesus. I asked her if she has a God fearing house cleaning lady for my mom, who is living in Egypt, and she said yes. Today my mother called the lady and she agreed to go and help my mom. This has been a prayer need for a while. We do reap if we don't give up. JESUS, our great high priest, is working on behalf of all our needs. Thank you family. MM

RDM gave a prophetic word about this year, 2023. In the word the Holy Spirit said (I know how to make your heart be filled with joy). Last night my son booked a very significant TV job. PTL! Please decree with me angelic protection and the walk of glory all around him. Please pray for our future travels and for someone to care for my plants and home. Thank you for hosting the Holy Spirit, I so appreciate this. MM

I just wanted to thank the group for praying for my brother, Rob. He was experiencing atrial fibrillation but now his heart is beating normally! We are rejoicing together over this report and he asked me to give you all a huge "thank you" from him. I can see him changing and know that I know the Lord is doing a wonderful work within him. SD

Two big paychecks came in for my sweet son. He is going on a trip in the near future and this will ease his financial burden. Thank you Jesus for your goodness and graces you've been pouring out on him. MM

A few weeks ago, when I had an opportunity and they were available, I visited with the RDM leaders. We were having a lovely visit and to my surprise they suddenly said they felt they should pray over me. As soon as they laid hands on me I sensed the anointing flowing. I am so grateful for both of them. Praise God. From that time forward the awful pain in my foot began to mend and it is many times better than before this happened. Thank you Lord Jesus. KH

Last week I was experiencing a lot of back pain. I wasn't certain what it was but the Bible Study group prayed over me, and I was anointed with oil. Not long after, I was feeling much better and thanking the Lord for His goodness. In connection with this, I went for an ultra sound test (it had been ordered at an earlier time). Praise God, the technician did not see any kidney stones. All praise and glory to our Healer, Jesus. SD

I wanted to thank the group here for all the prayers for

Praise Reports

my son Josh. Not only did he attend church with me on Easter morning, but his wife wanted to come also. They'd been having some marital difficulties of late, but after the church visit they want to go for marriage counseling with the staff. Thank you RDM all the praying paid off. Our God knows how to help His children with everything. Amen! KH

I have a praise report about my sweet daughter, Kristen. I've been sharing with her about the group praying for her and I've noticed a real change in her attitude. She used to always be a "doom and gloom" girl, but now she seems much more happy and "up". It really blesses my heart and is a joy for the whole family to see. CS

Praise God, RDM finally received a new color laser tabloid printer. After waiting many months since placing the purchase order with one particular vendor, our CFO suggested contacting Xerox instead. I immediately contacted Xerox and much to my shock, the printer we were looking to purchase, that was compatible with our computer and operating system, was once again in stock on the west coast. I canceled the order from the east coast vendor and placed an order with Xerox's west coast supplier. We were able to get the new printer within two weeks. God is so good. We would like to thank everyone who supported this need with either finances and/or prayer. We think you will appreciate the results with this newsletter.

I recently had to get not one, but two new tires. Yikes. They are quite expensive these days, but God was so good to me as I was able to find them at a reasonable price and they had good service too. Thank you Lord, I appreciate your goodness to me. ND

Many thanks for the RDM partners prayer group! We had requested prayer several months ago for our niece (Erin), who had a rare, debilitating auto-immune disease. First the Dr. found a drug to help clear up her lesions, which were ruining her life. Then, once those cleared up they were able to further help her through doing some surgery on her limbs. This was quite a long process, but recently after a final examination she got the go ahead to be able to go back to working. Glory be to Jesus, we cannot thank Him enough. Her mom said this will be life changing for her. PD

My grown son, recently moved back to my home for a season. He began attending church with me and is now in leadership training with my Pastor. How good is God.

I am so grateful for RDM as the group has kept my son in consistent prayer and this is one of many good results. He is moving in my son's behalf. Thanking Jesus. MM

Hi Sis, I am so very grateful for your call last night, God knew I needed a friend right at that exact moment. Thank you for praying for me, the burn was all the way almost to my elbow originally, and when I woke this morning it was only a couple inches, and no blister! It was exactly as prayed. Praise Jesus another miracle, woo hoo! DC

"The effectual fervent prayer of a righteous man availeth much." (RJV)
