

## Praise Reports

I asked for prayer as I had been waiting for a financial settlement to come through. Today the settlement finally came through and I am gratefully praising the Lord. He is good to His children. C.S.

Praising God because an altar has been torn down in a family member's life. This is a tremendous testimony of what God can do when we will allow Him to handle things. Thank you Jesus. M.M.

I was suffering with bad vertigo, which was waking me up at night. After prayer at the Bible Study, it is much, much better. Thank you Jesus you are faithful to me and to Prayer. K.H.

I asked RDM to pray for my precious daughter, Melissa. She was to have a surgery to implant a pace maker. Her heart muscle is sound, but the electrical portion was going haywire. She did have the surgery but there were complications, however, prayer continued to go up to the Heavens. As of today she is home, doing really well and again able to care for her family. I am so very grateful to Our Wonderful Jesus. He comes through every time you call upon Him. D.C.

Asked RDM for prayer concerning my brother. He had a PET scan and was diagnosed with cancer. As of today he is healed and enjoying life while rejoicing in the Lord. Thank you to all who prayed at Rivers. You are all such a blessing in my life. K.H.

My spouse was taken to the hospital by the paramedics this past week. I am praising the Lord that after several EKG'S he has a strong heart. It turned out to be acid reflux causing the chest pain as far as the Doctor's could figure out. He is on a medication for a short time for this. Thank you Lord Jesus for your mercies are new every morning. P.D.

I had a credit card debt of about eighty six hundred dollars. It was mostly due to an auto repair I needed. I had no idea how this would be paid, but God. He somehow made a way and now it is way down to thirty two hundred. I am rejoicing in the Lord He handles your finances if you allow Him to do it. N.A.

## Praise Reports

I requested prayer for my employment related testing. Praising the Lord as passed both required tests, one with a ninety percent, which is very good. I could tell that the Lord gave me the focus to concentrate and do this, all glory goes to my Maker. I thank RDM for all their prayers on my behalf. God bless you. M.M.

Does God care about our pets? Yes, for sure, the Word says He is concerned with everything that we are concerned about. I saw this up close as I and a friend prayed over her beloved cat. She'd had the animal for many years, but it was diagnosed with feline leukemia. She looked like she was at death's door. But God healed her after we prayed. My friend and I were both so happy with the outcome. How good is the Lord! N.D.

I have been praying for my sweet son for various spiritual things from the Lord. I have also asked RDM to pray for him. Good things are occurring as I am observing his recent behaviors. God is so very good, all we need do is ask Him and believe He keeps His Word to His children. A.N.

Our daughter was extremely ill for about six weeks and in and out of both Emergency room and Urgent care. She was unable to get a good nights rest or eat normally. She'd seen several specialists, had both multiple blood draws, and CT scans and is scheduled for few more tests. So far no one has been able to figure out what the problem is so she's been on a very bland diet. Prayer team rallied and so did our good friends and family. Thank you all that prayed, thank God for the Body of Christ! As of today, she is on the road to full healing and enjoying her usual activities. Especially glad she can sleep and eat once again. All praise and glory go to God for the wisdom He alone can give. Thank you Lord for your mercies and grace upon our child and us. P.D.

I was in extremely excruciating pain. It was a frightening time. I called on RDM folks to pray even for my Dr. appointment. He explained the procedure he felt was needed. That was also pretty awful, but better than the pain I was feeling. I had to have SI Facet Injections in my lumbar spine and a steroid is injected-it would help the pain and absorb the excess fluid which was causing more pain. The Dr. was amazed as an appointment was actually available within just a few days (God). The Dr. took a different approach than previously as it would be less painful (God). I did get the procedure done and am here to say I survived it (God). The real test if it worked was about two days later when I realized I could

lie down in my bed and I was free of the awful pain I'd had. Thanking all who prayed and above all Jesus Whom I know was with me through it all. D.C.

Today, I heard from my brother, Rob, in Idaho. RDM partners have been keeping him in prayer for several years for various situations. Thank God, as the Lord hears when we call to Him. Rob, who was having difficulty sleeping reported sleeping deeply and how good it made him feel. I can tell that God is surely at work in his life and it gives me the greatest joy. Thank you Lord Jesus, and God bless the RDM leaders and team. S.D.

God recently showed me He is taking care of my grandchildren so they would all know and experience Him and His love. I've been praying for them diligently and even when I visit their homes for any reason at all. Out of seemingly nowhere, they asked if they could watch a Christian program on their TV! The parents didn't mind. This went on for several weeks. Then, the parents signed the kids up for a one week camp. The kids have to take Bibles with them. What a blessing that was to my ears! I plan to get the bibles myself as a gift to them before camp trip. Only God could have arranged both things for them. Thank you Jesus for everyone of them getting Spirit filled at the camp. Praise our wonderful Jesus for ministering to them in a life altering way. D.C.

Today, when I first went to use my computer, it was a total disaster. Nothing seemed to be coming in clear or clean. I called some computer geek place and I'm thanking God that the problems were able to be corrected both quickly and efficiently, no work from me! This was altogether the Lord's doing. C.S.

Our church fellowship had a seven Wednesday Special Prayer Season with a wonderful anniversary celebration concluding. During this time the Worship was over the top-God used this to bring me into a brand new level during worship! I have been deeply affected by this wonderful change and cannot stop worshipping God-it is awesome. Thank you Jesus. This was an unexpected and most welcome surprise in my life. Glory to His Name forever. N.S.

I was going to have a procedure done but needed some authorization about a previous report indicating a heart murmur. Upon listening several times, with caution to my heart the Dr said she could hear no murmur compared to

## Praise Reports

one year ago. She gave me a clean slate in this area of health and said it would be removed from my record. Thank you Jesus. D.C.

Recently, we decided it was a good idea to "retrofit" our home foundations. It would cost about five thousand dollars. However, the Lord had a surprise blessing in store for us. We were contacted by the state as we got one of the winning numbers for a grant! Wow, thank you Jesus. As a result, it will take off about three thousand from the cost and our earthquake insurance bill will also go down. How good is the Lord! Thank you Father for this surprise, we are so very grateful. We know it was the Lord as the odds were astronomical because so many folks apply for these grants. R.D.

I asked RDM leaders to pray concerning a first for my grandkids. Here is what happened while they were away at camp. The first thing my grandson said to me when he got back from camp was that he read five pages in his new Bible! Second, he really enjoyed the services at camp! Then on top of that, the girls were singing the songs from camp all through lunch and they were reciting the fruits of the Spirit! A huge praise to God for moving in the kids lives during this week! Thank you for praying, God bless you both. D.C.

Ronny, a young man that was prayed for at the Bible Study, needed a bone marrow transplant at the time. He is doing well and recently got married. N.S.

My husband was taken to the ER one evening last month. Praising the Lord as he is fine. However, he was transferred to a different hospital and were we in shock when we got the bill for transporting him! It was \$3600! We are praising the Lord as it was covered by our insurance and we did not have to pay out of pocket. Thank you Jesus, for watching over our finances. P.D.
